

Become Part of A Community Movement!

UHP

Urban Health Partnerships (UHP)

UHP is a public health nonprofit that works with communities, governments, and organizations to support health and accessibility, especially in communities with fewer resources.

Donate to Support UHP Community Liaisons!

UHP Community Liaisons (CLs) are residents who are hired onto project teams working to advance policies, programs, and environmental changes that improve health and quality of life for those most in need. The CL Framework is a tested model for citizen-centered engagement in government and community initiatives.

Your Donations to UHP Will:

- Ensure that UHP remains financially strong and fiscally responsible as we work to expand our philanthropic giving program.
- Support the expansion of CL training to better equip them to champion positive change within their communities.
- Support the creation of a train-the-trainer model to teach other organizations and government agencies how to adopt this innovative model.
- Expand opportunities for CLs to take on leadership roles within community-wide initiatives.
- Strengthen the CL program to ensure it has the foundation to continue growing.

Community Liaisons Champion Policy, Programmatic, & Neighborhood Improvements:

- Safer streets, transportation, & parks.
- Improved access to health resources.
- Services and support for older adults.
- Greater access to healthy food.

Community Liaison (CL) Impact Highlights

60+

CLs UHP has hired and trained to work with South Florida communities!

6M+

6M+ residents served across 44 communities and 3 counties

7925+

Community members directly engaged by CLs in 2023 and 2024.

420+

Local, state, and national leaders were brought together in 2023 through 2 capacity and action-building events, fostering collaboration and driving impactful community initiatives.

“

A partnership with UHP means working together so we can make a real difference in our community. It's about being supported, heard and having the tools to create change. Together we are stronger and can build a brighter future for everyone.

Ellie Lei, Community Liaison
